“You are about to learn the dirty little secrets, hacks, and killer ways underground affiliates are making as much as \$16,000 or more per day without even selling anything, in non buyer niche markets, often times without even having a list... ALL with traffic that cost less than ten flippin cents per click!”

PART TWO: FAST ACTION PROFITS

Copywrite 2016 Simple Sites Big Profits

Welcome back.

In my last report we went over how cpa affiliate offers work, different kinds of download offers and freebies, and what kind of niches they work best on.

In this report we will be going over...

1. How to determine if a niche will work.
2. What kind of offers convert best and at what EPC
3. Three MUST Have tools to make this work best

So let's dive in and pick up where we left off.

Last time we were going over the whole idea of how there is a TON of website traffic and very few people know how to convert their traffic to the full potential.

This presents a huge opportunity for those who learn the secret art of rapid fire, cut throat, traffic conversion.

First of all... what is this "cut throat" conversion stuff?

Cut throat conversion is back against the wall, make as much as you can off every visitor that comes to your site, and cut your bounce rate down to 10% or less.

You see this is a big problem... most affiliate sites and blogs get a 75% or more bounce rate.

What this means is 75% of the people who see your site LEAVE without doing anything... usually within a second or two.

So imagine this... lets say you got 100 visitors at \$1 each.

You spend \$100 and 100 people now come to your site.

75% leave without doing anything...

24% click around and eventually leave...

1% buys the product... if you are lucky...

This is how most marketers end up when first trying out... they perhaps get a sale... and 99 clicks have been lost.

That means \$75 of your marketing dollars went out the door in less than 3 seconds... then another \$24 poked around and left without making you anything...

And if your lucky... the \$1 you spent on that other guy... perhaps he orders or opts in or something.

Two Questions:

1. Wouldn't you like to do something with the rest of your visitors that you PAID for?
2. Wouldn't you like to be able to pay for people in the last 1% that end up buying?

Just imagine... not only would this better qualify your traffic and put your conversion rates thru the roof... but it would also cut out the wasted \$99 you spent trying to find that "one guy."

Starting to see the picture?

So cut throat conversion is about making money off the masses WHILE finding that one guy.

Here is how it works...

When you go to find a niche... instead of piling yourself with the other guys and going for something related to a certain market or topic...

Use my trigger words instead... these trigger words are great for a new marketer who doesn't know what niche to get started in...

These trigger words also work for struggling marketers who have a niche but cannot make it convert... more about that later...

If You Want One Of My Niches... Click Here

Ok... so what is a trigger word.

A trigger word is a word like "download" or "fix" that TRIGGERS other words based on search INTENT...

Notice how these words are based on intent and not a market in general... we don't know if they want to download a cat picture or if they want to fix their tv... we just know they want to download something and fix something...

When I load the Google Adwords Keyword Planner...

I can type in my trigger word like this (make sure you have close related matches on)

The image shows a screenshot of the Google Adwords Keyword Planner interface. On the left, there is a search box titled "Search for new keywords using a phrase, website or category". Below this, there are three input fields: "Your product or service" with the text "download", "Your landing page" with the text "www.example.com/page", and "Your product category" with a dropdown menu. On the right, there is a "Keyword options" panel with four toggle switches: "Only show ideas closely related to my search terms" (ON), "Show keywords in my account" (OFF), "Show keywords in my plan" (OFF), and "Show adult ideas" (OFF). At the bottom of the panel are "Save" and "Cancel" buttons.

This will give me a list of words related to the word download:

Keyword (by relevance)	Avg. monthly searches <small>?</small> ↓	Competition <small>?</small>	Suggested bid <small>?</small>
software download	↗ 74,000	Medium	\$0.17
free software download	↗ 27,100	Low	\$0.43
download software	↗ 27,100	Low	\$0.24
software free download	↗ 18,100	Low	\$0.35
free download software	↗ 9,900	Low	\$0.43
pc software free download	↗ 6,600	Low	\$0.33
software download free	↗ 4,400	Low	\$0.25
download free software	↗ 3,600	Low	\$0.50
download v	↗ 3,600	Low	\$0.42

Right out of the gate you will notice that we see a lot of free download, software download, ect...

Which is pretty broad, we don't really know what they want so we cant do any cut throat converting...

At best we could "guestimate" that they want some of the top ten downloads or something... perhaps... probably a long shot though.

So lets narrow this down... this is where we need to do a little brainstorming...

For this example... I could ask myself... what kind of things do people download... or I could google something like... "top downloaded file types"

With a little research I found out that the top downloaded files types are... MP4, MP3, DOC, PDF, EXE, XLS, and ZIP

So now lets try this again with one of these...

Here is one for XLS... and I still have the "related" checked so it will weed out the junk...

Keyword (by relevance)	Avg. monthly searches <small>?</small> ↓	Competition <small>?</small>	Suggested bid <small>?</small>
xls download	590	Low	\$0.76
xls to pdf converter free download	260	Low	\$0.24
download xls file	210	Low	\$0.23
xls file download	210	Low	\$0.22
xls viewer download	210	Low	–
pdf to xls converter free download	140	Low	\$0.07

Decent... really low traffic though... lets turn off related...

Ok now we are getting somewhere 😊

Keyword (by relevance)	Avg. monthly searches <small>?</small> ↓	Competition <small>?</small>	Suggested bid <small>?</small>
xls	165,000	Low	\$0.33
pdf converter free download	14,800	Medium	\$0.15
xlsx viewer	9,900	Low	\$0.55
xls viewer	9,900	Low	\$0.13
xls to pdf	9,900	Low	\$0.47
xlsx to xls	9,900	Low	\$1.07
xlsx file	5,400	Low	\$0.74
xls file	5,400	Low	\$1.32
pdf converter software	3,600	Medium	\$1.60

We could use something like “pdf converter free download” with over 14,000 searches per month...

I like it 😊 and here is what I would do...

First: Check for a direct offer... you can see the downloadable offers I have listed on my forum here

<http://affiliatemarketingdude.com/forum/viewforum.php?f=59>

You can see that we have the pdf converter:

Which serves many file types and PAYS us \$4.50 per download, we don't have to sell anything and the visitor gets what they want.

At 10 cents per click all we need to do is get 1/45 people to download and we can break even... 1/20 and we make some cash... 1/10 and we can break the bank ;)

So this is a good niche with no competition... and a hot offer.

Second: Go Here And Get A Domain With A New Hosting

We want to get a domain as close to

pdfconverterfreedownload.com

Or something like that... perhaps shorter since we are going to use pay per click and youtube traffic...

After playing around a bit I found that downloadpdfconverter.com is in fact available... so I'm gonna buy it right now...

If you do not have a niche in mind yet I would highly advise setting up what I call a [HUB site](#)...

[Click Here To Set Up Your Hub Site](#) So You Are Ready For Lesson Two When We Get There...

Getting your [hub site](#) will also hook you up with \$200 in free ppc coupons so you can test your first site "on the house" and don't have to risk your own money.

So it's well worth the \$7 a month – [Hub Site Instructions Here](#)

Now... [After You Get Your Hub Site And Domain](#)... Here Are The Steps To Getting Started...

You Can Watch Me Set This Up Live In Seven Day Blog Profits

<http://www.affiliatemarketingdude.com/console/7day.htm>

you can download the software tool here <http://www.affiliatemarketingdude.com>

Just follow along... its super easy. Here is the checklist.

1. [Domain and hosting](#)
2. Set up wordpress
3. Install smart affiliate ads, squeeze blogs, and afflinks plugins.
4. Set your home page to a static page
5. Create 3-4 pages based on sub category words
6. Get a good direct response theme

All of this is covered in the seven day blog profits so I won't try to spell it out here.

This is the basic checklist for every blog / site in every niche market. I have used this method for 16 years now and nothing has changed, but things have gotten easier over the years with wordpress and better offers and stuff.

The key here is to remember WHO you are talking to and WHAT they ultimately want.

You want to think of what is natural...

For example... if I have a pdf converter... its probably not natural for me to ask for their zip code before the download... that would be weird...

But if I have a site about gas prices or mortgages then a zip code box might make sense...

Or if I have a site like my lottery site... its natural to have a little drop down box with the latest numbers...

If I have a download site like the pdf... it would be totally normal to have a little file searcher with an upload button and a big Download your new file here button.

PDF to JPG

Convert *PDF to JPG* - [Convert your file now](#) - online and free - this page also contains information on the PDF and JPG file extensions.

Step 1 Select files or URL to convert (up to 50MB - want more ?) <input type="button" value="Choose Files..."/> or drag and drop files	Step 2 Choose the format to convert to: <input type="text" value="Convert files to: ▼"/>	Step 3 Enter your email address to receive converted files: <input type="text"/>	Step 4 Convert your file now (agree to our Terms ?) <input type="button" value="Convert"/>
--	---	---	--

This is the kind of thing you would expect... and your visitors would too... very simple.

So instead of taking all this time to talk about the history of the pdf, different programs out there, and all that filler stuff... just say here's what you do... bam bam bam... now get the toolbar.

Very simple... straight forward... and it works.

I did the same thing on many of my sites.

Let me show you some examples...

On my tattoo site I thought, instead of just having links to clickbank books or tattoo affiliate sites...

What if I let them search for the tattoo they want... this is super easy to implement using the search box plugin...

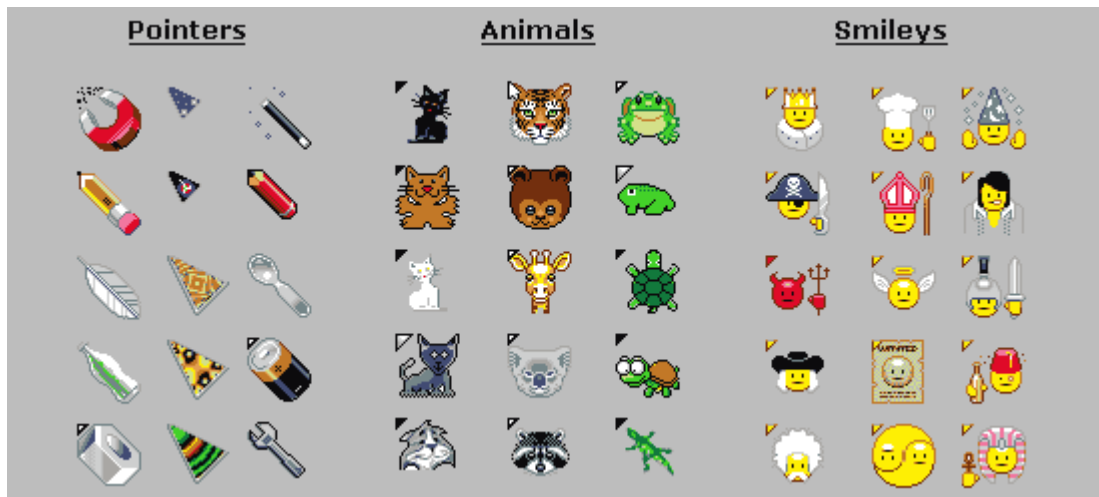

The screenshot shows the homepage of www.Your-Tattoos.com. The header features the website name in a stylized orange font, flanked by two scorpions. Below the header, the text reads "Find Your Perfect Tattoo Design" in red. A search box is prominently displayed with the prompt ">>> Enter Your Email Address Here <<<". Below the search box is a "Submit" button. A disclaimer states: "We Do Not Collect Your Personal Information - We Simply Pass It To The Next Page For Your Convenience. Please Read All Third Party Offers Carefully!". At the bottom, there are six icons representing different tattoo designs: a dragon, a butterfly, a skull with a star, a rose, a fairy, and a cross. Below these icons are links to various tattoo categories: [tattoo designs](#), [Lower Back Tattoos](#), [Tribal Tattoos](#), [Butterfly Tattoos](#), [Fairy Tattoos](#), and [Cross Tattoo](#).

Notice how the search is the main course, but I also have the top searched for tattoos below as well... use your keyword tools :-

Now on my “Christian Layouts” site I didn’t have the search up front as I knew I would make more money promoting the cursors download toolbar...

So instead of using the boring ole banner...

I Spent an hour or so finding a bunch of Christian cursors.. because of this hour... my conversion quadrupled and I was making like \$0.36 per click where others made an average of 4.

Share Your Faith With These Cool Christian Myspace Layout Tools

Follow These Steps - Its Easy!

Step 1: Get Your Free Christian Cursors

When I was going for the keyword “glitter graphics” I noticed that people wanted to make a little image of their name or word or whatever in a glitter style...

so I made a little search box that took their name to the page so they can see their graphic (the affiliate network coded this for me free since I was making them over \$800K a year) and then it said

Download Your Glitter Graphic Here

And that went to the offer... this is what I am talking about... you have to FORCE your traffic to convert by using creative methods that are natural with what these people want.

Here is a more recent one I set up this year...

It's a no brainer... just gotta make it convert.

And you can even pair offers together... like bible toolbars and bible cursors or pdf of something.

Sometimes I have a download with a high paying CPA offer too.

Like This Report... Check Out www.simplesitesbigprofits.com/download.php For A Video Overview.

Like if I was going for hard drive error (as in the last report)

I could have the \$6 pay per download offer

I could also have some adsense

And I could even run the \$140 trial offer for pc backups.

All at the same time... ALL making me money.

The key is to be broad enough to meet your target keywords needs but narrow enough that you do not lose people.

AND you want to focus on HOW people search and what they expect.

Lets face it... if you went on facebook and all the sudden it was green and the logo changed...

You would be confused and wonder what was wrong... and you probably wouldn't use facebook till you found out what was up.

Or if you went to google and it was hard to find the search box... google would lose millions that day.

So it all has to do with what people are expecting to see.

Like when I promote a weather toolbar... even though the toolbar doesn't ask for their zip code... I do this on my main page so that they are interacting with my site... and then they are more likely to get the toolbar...

Like this...

[In A Hurry - Click Here For Your Weather Toolbar](#)

for now... lets do some QandA

Naveen Munikuntla How sure about it that it will work the same on different sites and different niches?

As long as your niche has a direct offer or offer that fits the users needs and the cost per click makes sense... this works in any niche... I have used it for niches from mortgage to bible to tattoo and even on web hosting.

It's all about CONVERSION! And it's a numbers game.

Maximilian Klaes Any social Media needed ? 😊
Unlike · Reply · 👍 1 · February 22 at 11:48am

Social media is used to get traffic... so if you wanted to you can make a site about bible verses, start a facebook page and group about bible verses and drive people back to your site.

This works in some niches and others it will not. It all has to do with where your traffic is... if its on social media use it.

Its very important to compartmentalize traffic methods (ppc, seo, social media) and conversion methods (direct linking, blogs, sites, landing pages, squeeze pages) they are not the same.

Chris Fennell Well, it sounds too good to be true but I'm sure it could be achieved after a lengthy testing period and lots of investment. I would like to know what is the average sale/commission and what is the \$CPA? Obviously would want to learn the PPC strategy and sales funnel.

Unlike · Reply · 1 · February 22 at 11:58am

You can start small... most of the time I test like \$5 the first day... at \$0.10 per click that is 50 clicks... if I don't see a conversion then I know what is going on and can get some insight... start small , be deliberate, and test with a goal in mind.

Alyssa Marie Interested to know if the info would be relevant to a newbie IM like myself or if I need more affiliate experience first?

In my opinion, after helping thousands of newbies... this is hands down the easiest way to get started.

Most newbies struggle with two things.

Finding the right niche and converting traffic.

This method solves both.

Jeffery Miles What a lot of newbies get hung up on is the "doing" or "technical" part of putting these ideas into action. Will you also cover the technical parts of this?

Check the 7 day blog profits

Hamza Harb How to get profits without selling any affiliate?

Like · Reply · February 22 at 12:35pm

With this type of method you DO NOT need to sell stuff... only get conversions... you can get paid per click (adsense) per download, per lead, per call, ect...

But you have to learn to make your visitors take action.

Ken Bluttmann Marcus Campbell. All we need to know is how to make money in a reasonable way with no bs. No unrealistic promises, etc. Let's say I have \$500 to spend right now...how would you turn that into \$1000 in 2 months..with no list

If all you have is \$500 to invest and you want to double it in a month here is what I would do (obviously results are not guaranteed or implied... but here is what I would do)

1. Get simple sites big profits here (its on sale at \$297)
2. Set up a site in a high paying market (hosting or mortgage)
3. Set up a download site

Focus on the high paying site like its your baby... remember to make \$500 a month profit... all you need to do is get 5 signups... or about 1 a week... not to hard.

Find some backend keywords like "set up blog" or buy domain name or something cheap... and guide them into hosting.

I make about 1500 to 2000 a month on this exact method... and im a small potato in this market... the big affiliates are doing like 60K a month... so you can make it work

Then focus on your other site using the methods in this guide... focus on getting 10 downloads per day to start... if you can get them then you can grow... and be very careful with ppc watch it and only run ads when you are home and at a computer... some budgets go fast... but you are always in control.

And remember when you get simple sites and our preferred hosting you get \$200 in free ppc coupons to test with.

It's a no brainer... then ask for help once you are a member and ill make sure you are on the right path.

Gwen Obenza tbh, this is a first for me - to hear about running a niche site solely based in CPL. how long are your blog posts and how often do you update?

Honestly I start with a four page blog and they rarely get much bigger... once you find a combo that converts... its best to leave it alone. You can post later if you like or want to build a list...but once they are set up they can make money without daily posting or blogging. We only use blogs cause its easy to set up.

Gwen Obenza tbh, this is a first for me - to hear about running a niche site solely based in CPL. how long are your blog posts and how often do you update?

All of our products are mac, pc, and web compatible... you can even use them on your phone.

Dave DeMille "What is the startup costs?" Would be my question.

If you have the \$297 to get simple sites you would want to have another \$70 to get hosting... so you can get started under \$400.

And that gives you \$200 in ppc credits too – we also teach free traffic methods which work wonders when used right.

John Mulder Hey Marcus, the question I'd like the answer to is this; based on your experience, what would you do if your back was against the wall and you absolutely, positively had to make money online this month. Preferably a process that is relatively simple, scalable and repeatable. If you could then also include a recipe for turning water into wine and how to walk on water that would be great 😊

Get traffic and sell stuff.

When dealing with offers like downloads, or hosting, or pc backup... they give you the conversion amount.

So if I KNOW I get \$140 when someone gets backup.

I can run an ad on all the error words. Take them to a site with info (run live chat) and sit there and help people and sell all day like a customer service person.

If I close 1 sale a day I'm making \$5k a month.

Then I can take all the transcripts of my live chats and edit them as Q and A on my site to sell when I am not there.

It's not hard for those willing to hustle and make it work.

Russell Lobo I would love to know which offer to promote via offer vault. From your videos and posts I feel I should choose toolbar downloads but havent come across a good one other than recipes

Any offer that fits your niche that you find using the trigger word method. Keep in mind offervault is just a search engine... you have to go to the cpa network to get the offer and run it.

Shan Ghori Hype numbers like \$16000 per day always a turn off point for me. I would like to see how to make with \$100 as a goal and then a strategy of scaling the campaign to bigger goals.

Would even better if done in a case study style so we know it is not just theory and it actually works

You can call things hype and junk whenever you like... but do not be picky about where your truth comes from.

For example... I think Donald trump is a total moron when it comes to leading the country... however if I was going into real estate investing... even though he hypes and touts 5 billion and is a total jerk about it... I would still listen to his real estate advice.

You are ripping yourself off by judging something before investigating it thoroughly.

Shan Ghori Marcus Campbell you showed a screenshot from adwords. Are these types of offers allowed on adwords or did you ran other offers?

Everything is allowed on adwords if you follow their rules. The key is to focus on helping the market first.

When you do this... they love it because you are making for a better customer experience.

Many ads get rejected by adwords at first... even the good brick and mortar business ones... you have to press on and make it work. I have had many ads rejected, and many accepted. Don't give up. And while you are messing with them... use MSN 😊

OK that is about it for now... we will follow up with some webinars on this topic as well so make sure you go to

Over 2,500 Sold - Simple Sites Big Profits...

Marcus, I want to personally thank you for teaching me through the simple site sites program. I have been online for more than 3 years and until I was introduced to your program, I wasted money buying program after program. Your simple sites program, showed me how to create several simple but effective sites that has brought me over \$11,233 dollars so far in 2013. I would recommend at least investigating this program for yourself. Marcus has two main programs that I have purchased and implemented myself. I went so far as to provide reviews. Here is [Blog Profit Network Review](#). is one. Check it out and see for yourself.

Bought, verified, and tested that the system works. Questions post and I will answer

Over 2,500 Sold - Simple Sites Big Profits... The Original CPA Affiliate Guide...

😊 I have been struggling with online marketing for years, tried many different programs & spent thousands of dollars, with absolutely NO success. Simple Sites Big Profits was going to be my last attempt at online marketing. I signed up a couple months ago and started to make money last month, I'm very excited!! Thank You Marcus you have restored my faith...

Marcus has a unique strategy that really does work!!

HIS LAST ATTEMPT FOR INTERNET MARKETING... SIMPLE SITES PAID OFF!!!

<p>702chris Warrior Member</p> <p>Join Date: 2013 Posts: 0 Thanks: 0 Thanked 0 Times in 0 Posts</p>	<p>Over 2,500 Sold - Simple Sites Big Profits... The Original CPA Affiliate Guide...</p> <p>I joined Marcus's Blog Profit Network and Bootcamp series late in 2012. I discovered it via a webinar through another program I purchased focusing on Amazon. It was an all encompassing course and was continually growing frustrated because those owners seemed to be making too much and no time to support on a \$2k product. Enter Marcus, his message was simple, his ideas and how he makes money seem to resonate day in, day out, year after year, not just the new sexy Susan. Flip the Market is something he teaches. Does that make sense, no? Check it out! Another thing that is nice is, he has live chat, where he can be found for several hours a day. He is in California so let it be known PST. You can ask him all your questions. In the last couple months, he has added to the support by employing very real, LIVE persons. I think the biggest thing is accountability and if you cannot catch either him or his support staff on live chat well then, just catch them on live chat! They are hanging out alot. My income is not where it needs to be, but I suffer from the shiny toy object syndrome. I am really focuses on this system. Attend a bootcamp meetup and meet faces with names that you see on training webinars and solidify relationships as you learn to make \$\$\$\$☺</p>

Having been online for over 25 years I finally learned how to make real money with your program. What makes your Simple Sites system so amazing and incomparable is your honesty. I am so glad I got on board with your team. Now I am going places. This is the only system of its kind that gets real results. Your program hands down is the best money I have ever spent. My wife and kids all agree. Thank you.</p> <p>Marvin K.</p>

Marcus, What Do I Need To Do To Get Started?

1. What Kind Of Budget Do I Need To Start With?

After getting simple sites we recommend that you have at least \$80-100 to start with web hosting and other items you may need along the way... you can use your current hosting if you wish.

2. Can I Host Multiple Sites On One Hosting Or Do I Need A Bunch?

As long as you have a host that supports multiple domains per account (usually a shared account you can get for a few bucks a month will do) this will allow you to host 20-30 simple sites :-)) on one account.

3. What About Domain Names... Do I Need A New Name For Each Site?

You will want to get a new domain name for each category site ie: fitness, mortgages, ect... you can however have multiple fitness type sites on one domain.

4. Do I Need A HUGE Pay Per Click Budget?

Nope not at all... actually we start very small and increase our budget only after seeing some results. You can usually test a new site with less than \$30 and many times if you follow our directions you will at least break even or even make something on the test... and on top of that we show you how to get over \$200 in

Like This Report... Check Out www.simplesitesbigprofits.com/download.php For A Video Overview.

free PPC ad coupons with your new site set up... so you can test your new ads "on the house" :)

5. How Much Time Per Day Should I Dedicate To Simple Sites To Be Successful?

We recommend 15 - 30 minutes per day actively working on specific tasks (found in your daily task guide) to start seeing results. Keep in mind your work will add up over time to big numbers so you can start making even more daily even when you are not working. However you can work as much as you like :-)

6. How Fast Can I Start Seeing Results?

This is a lot like the "how much can I earn" question... it really depends on you as a person, the work you put into it, and how focused you are. With that said there are ways to start earning starting today if you really want to... you just need to focus and work at the things that get results.

Remember 90% of this business is mindset... you must focus on the fact that people are always online, they are always searching, and someone is gonna make money today.. might as well be you :-)

7. Is The Whole Idea To Run 1,000 Sites That Make \$1 A Day Each?

While this can work... it simply gets to be a bit much to handle for anyone ;) I would focus more on starting with 3-5 sites... watch which ones have potential and build them up. Some of your simple sites may do a few bucks a day, some \$27 a day, some may do 100s or 1000s per day... the key is to let the little ones make their money while you work at making the big ones even bigger. Its much easier to take a site from \$10 to \$100 a day than it is to build new ones. So focus more on building the ones you have rather than just making as many as possible. My simple sites software will show you how to nurture a site to massive profits pretty fast...
