"The only thing that stops most people is a lack of belief they can do something simple. They don't have to give up what they're doing. They just have to start something." Richard Bandler

Are you ready to learn what it takes to make a living online by building profitable websites?

Good... I'm ready to help you... But I Gotta Make Sure You Are Totally Serious... So...

Make a commitment to yourself to learn this business over the course of the next ninety days. Resist the urge to quit if you get frustrated or feel overwhelmed. Take your time... learn and grow. This business takes some hard work and determination... but can be very very rewarding if you stick with it long enough.

Over the past few years I have worked very hard at making this program easy to understand and follow. Many of the videos you will see are based on questions from people just like you... in the trenches, learning things, and working at making this 'work at home' thing happen.

Basically I have taken TWELVE YEARS of running my own business and taken out all the hard parts, mess-ups, costly mistakes, and things that set me back, so that you can learn from my experience. That is the key... all of the things you do in business and in life can be judged by their results and learned from. Instead of looking at something as a success or failure... ask yourself... what can I learn from this and how can I do better in the future.

That is 100% of the reason I have been successful... I Stuck With It! Notice that I didn't say I kept throwing money at it... Resist the urge to buy the next latest greatest money making tool... unless you really feel it will help you with what you are already doing. Commit to learning **MARKETING FIRST** - that will help you with everything else. Now... If You Make A Commitment To Yourself... I will make a commitment as well - I will commit to helping you over the next ninety days thru the use of my support center icon on your simple sites desktop. All I ask is that you respect my time and try to get your answers in the program first. This will free up my time to help you with important stuff like... how to make your website profitable :o)

So... Lets Commit To Sticking With This For **AT LEAST** Ninety Days
