

How to make an extra \$500 a week in 2019

How would you feel if you were able to make an extra \$500 a week in 2019 with affiliate marketing?

For the average American household, *the world would change for them* if they had an extra \$500 a month - let alone **\$500 a week**.

That's an extra \$26,000 a year

You could go pay for a car

You could pay your mortgage

.....just out of your affiliate earnings

That would cover the private school tuition for my kids!

So, if we could show you guys how to get this,
I think it'll really, really help you guys understand how this stuff works.

Help you focus and get your mind in the right place!

Now we're going to show you how this stuff works.

I've been doing affiliate marketing for over 19 years

I've been making a full-time living for those 19 years

A lot of people asked me

“How long did it take you to get profitable?”

and I said **“The first day”**

We're going to talk about how to be profitable the first day.

Why that works

How that works

What you need to understand to make this stuff happen

I believe that every single person reading this can get the results that they want if they focus enough. There is no difference between me sitting here and you sitting there; Nothing at all.

The only difference is I have some knowledge that made it work.

With the Internet age,
I have another business where I actually sell my knowledge to you

**You can actually buy that knowledge!
You could buy that experience!**

which is worth its weight in gold.

What would it be worth to you to hear about:

19 years of struggle

19 years of the things that went good

19 years of things that were like

“Oh, Wow! That worked way better than I thought!”

19 years of *“Hey... That didn't work so good at all.”*

What would that be worth to you?

For me, **it has been worth close to over \$8,000,000**
over the course of my internet marketing career.

We're gonna break it down and *show you some of the things that have made money.* We're gonna show you *inside the sites.* We're gonna show you *inside the things that work, inside the things that don't work.*

We're gonna show you what's going on.

We are going to talk about how to make that extra \$500 or more per week

I got students that are making \$500 a week!

I got students that are making way more than that!

and the majority of students never make anything!

We're gonna talk about that as well because I think that

You can learn a lot more from your failures than your successes

And, also, I heard it said that:

**A smart man learns from their own mistakes
but a wise man learns from the mistakes of others**

Can you learn?

Are you open?

Are you ready to make this happen?

Now you're gonna notice here that I have it broken down for you:

If you want to make **\$500 a week**
that is approximately **\$71 a day**
approximately **\$2.95 per hour**

Once we break this down it becomes a lot easier

If I told you

"I want you to make \$26,000 a year starting right now."

You'd probably freak out and be like:

"Marcus I can't do that!
I don't know how to do that!"

But if I told you

"Today I want you to make \$71 a day. I don't care what you know. I don't care what you think. I want you to figure it out. I want you to do it."

That's a lot easier Goal!

I like to focus on the small goal

I like to focus on the little thing that I can do

because now I know....

"Hey! I need to make \$71 a day or **\$2.95 per hour all day, every day**"

*because our sites don't take days off!
They don't have weekends!
They don't like go to lunch!
They're always there!
These things are working 24/7!*

So, if we want to do this we have to look at:

What do I want to do?

Do I want to sell a web hosting package?

Do I want to get a couple people to buy a Clickbank book every day?

Do I want to sell maybe \$1,000 membership thing for where I get \$1,000?

What is it that we need to do to get where we want to go?

This is the most laser-focused thing that you need to focus on.

You have to look at what's going to work for your market

Here is what's going to work:

Having the right message for the right market

I don't care how fancy it is.

I could write on a piece of paper what I want to say
and if I give it to the right person,

They're gonna buy.

Plain and simple.

This is how marketing works

If you go out and you try to sell ice to Eskimos,

it's gonna be a tough sale

If you try to sell it to people here in Florida where it's hot every day,

it's gonna be a lot easier.

FOCUS ON THAT.

Those are the fundamentals of marketing.

DO NOT STRAY FROM IT

**Do not look outside anything else
That's the deal.**

If you don't have the right message to the right market, You are OUT.

If you want to make your \$500 dollars a week,

How are you gonna do it?

You're **NOT** gonna do it by learning more tech skills...

You're **NOT** gonna earn it by doing some fancy image editing skills...

You're **NOT** gonna earn it by doing some fancy blog, wordpress theme thing...

You're **NOT** gonna do it by learning a bunch of SEO...

If I could just get a bunch
of free traffic,
I'd be rich!

No. You probably wouldn't.

You're gonna learn it by getting the right offer in front of the right market

I watch the other people's videos. There is a lot of people out there and they get a lot of traffic and they make peanuts. They make nothing. They make \$500 a month and they're getting 60,000 visitors a month.

.....If I only got \$500 for 60,000 visitors.....I'd be broke as a joke.

because I don't get that many visitors

I don't need that many visitors

I need to convert the visitors I have!

We're gonna talk to you about:

How to start

Where to start

.....everything like that

Now I want to show you some examples.

This is my random PayPal account

- it's only set up to take affiliate commissions:

a couple of random programs that only pay with PayPal.

I want to show you some payments that were made to me this year from random affiliate programs.....

\$26,000 Per Year Online
My Random Paypal Affiliate Commissions

This is like the junk drawer of money. It's got all your random stuff. You got all your big important stuff somewhere else

Any Results You See Or Read About In This Report Are Not Typical, Implied, Or Guaranteed. Building An Internet Business Of Any Kind Takes Work, Dedication, Persistence, And EVEN Then You May Make Nothing And It's Possible You Could Even Lose Money. The Average Affiliate Marketer Earns Nothing.

This is my junk drawer.

Now my junk drawer this year:

Here's a payment I got a couple little days ago for almost \$5000

One I got for \$18.57

You guys could see there's a lot of money going in
and on and on we go

Remember: PayPal is less than 5% of my income.

So you could see there's like a lot of money in the junk drawer

My best month of the junk drawer was \$9400

That's pretty good.

How many guys would be like:

"Yeah, I'd like to like have almost 10,000 in the junk drawer from random affiliate offers."

I think that would be pretty cool, right?

That would be awesome

How would that feel for you if you were able to be like:

"Yeah I got \$10,000 this month and it's not even my big thing.
That's just in my little junk drawer."

This year alone, I got over \$57,000 in payments for the random offers in the junk drawer.

Now, for a lot of people, if they could make \$57,000 as their major source of income they would be happier than a pig in the slop. That would be happier than whatever happy things are and wherever happy people are.

I would be happy if I was able to look at a check and be like

"Man! This year, I got \$57,000! Awesome!"

*Now, again remember:
That's just my junk drawer*

I can show you the results from just random little stuff that I do and I think a lot of the other stuff will start to make sense....

I think you'll start to get the magnitude of this business

and also... I'm a small fry!

There's a lot of other people that make 10, 15, 20, 100 times what I make!

There's a lot of people that make a lot more!

But I got a system that works!

I choose to be smaller because I like the lifestyle it provides.
I don't want a huge lifestyle. I don't need all this stuff.

but we got a look at that
We got what is a lifestyle you want

Now here's some other affiliate offers that I ran....

Now, I want you to look at the clicks, **I only got 2,000 visitors**

That's all I sent! That's not that much right.
There's people getting lots of traffic.
I get lots - I get 2,000 visitors a day!

.....but this was 2,000 visitors I sent to one offer.
I got \$18,700 for 2,000 visitors.

The results you see, the screenshot you see is not typical.
They're not implied.
They're not guaranteed.
Watching this training will make you nothing.
At the end of the training you will have no more money in your bank account.
You're not gonna make anything reading this.

***But if you apply what you learn, I think this will change your life
If you really apply it.***

But a lot of people don't apply it.

If you're not focusing on the right audience and the right offer...

Any Results You See Or Read About In This Report Are Not Typical, Implied, Or Guaranteed. Building An Internet Business Of Any Kind Takes Work, Dedication, Persistence, And EVEN Then You May Make Nothing And It's Possible You Could Even Lose Money. The Average Affiliate Marketer Earns Nothing.

You're not gonna make money

If I just went to some website and bought a banner ad and got 2,000 random visitors, I probably wouldn't have made \$18,000

RIGHT NOW is the time to focus

Now is the time to say:

Whatever I bought in the past...

Whatever I've done in the past...

Whatever brought me to this situation I'm in now..

...is irrelevant

RIGHT NOW, what I'm going to do is:

I'M GONNA GO FORWARD

This is exactly what happened to me years ago when I started affiliate marketing. I went in affiliate marketing and I started and **I was down and out**. I was **broke**; probably broke than a lot of you. I lived in the living room of my brother's mobile home. I had a car that barely worked. I used to be a preacher at the time and a preacher friend of mine actually paid to fix my car because it was broke. Other than that, **it barely even worked**. I didn't have a lot of money for food, for health insurance. I had a baby on the way. My girlfriend, now she's my wife, was pregnant at the time. **We had no money**. I had the stories. I had everything. **I had no place to live**.

Here I was. This was my story.

What does my story have to do with my success?

Nothing.

...It's just a good story.

What does it have to do?

Does it matter that I was broken?

Was it good or bad that I was broke?

NO.

It was neither good nor bad.

It was where I was.

Plain and simple.

Now, you might think that if a guy has a million dollars in the bank he's probably going to be successful with affiliate marketing....

Maybe

Maybe Not

I got clients from all walks of life....

It doesn't matter

Any Results You See Or Read About In This Report Are Not Typical, Implied, Or Guaranteed. Building An Internet Business Of Any Kind Takes Work, Dedication, Persistence, And EVEN Then You May Make Nothing And It's Possible You Could Even Lose Money. The Average Affiliate Marketer Earns Nothing.

actually...

Usually, the people who really need the money the most
are the ones who make it.

Usually the least successful customer is the one who's making \$70,000 - \$100,000 a year.

They're comfortable

They got their job

They don't really need to do affiliate marketing but they're kind of tired of their job but they like getting paid by their job so they really don't want to do anything

That's usually the demographic that doesn't work

When I get some kid who's like:

Dude, I want out of college. I barely graduated high school. I work random jobs and I just got fired from it.
I want to make money.

Those are usually the ones that make it.

Why?because they have to.
THEY HAVE TO.

I guarantee if you had to make this business work like I had to 20 years ago... If you had to, **you'd make it work.**

We always do what we have to do

Usually, some people don't.....

Some people roll over and do whatever.....

but most people do what they have to do.

Are you willing to do what you have to do?

Even when you don't have to do it,

Are you willing to self-motivate yourself and say:

Look Marcus, I want to be able to send 2,000 clicks and get \$18,000

*It's very important
You got to look at it.
You got to focus.*

If your back was against the wal,I what would you do?

How many of you guys are complaining because you can't build a website?

If your back was against the wall and I said:

Look, I'm gonna sell your house if you don't build a website.

You figure out a way to build a website!

If you had to,
you'd figure out a way

and you'd figure it out fast
You wouldn't dilly-dally around
You wouldn't go out there and be like
"Well the Guru said this and this guy said that and
there was this one video I saw...."

You'd be like
"I'm gonna learn to build a damn website
I have to."

So make it a MUST!

Now, from another random affiliate offer.....

I made almost \$44,000.

One of my accounts, one little account is doing almost \$1700 a day

Think about that for a minute

What if you had one thing that produced \$1700 a day for you?

How would you feel?

Now, again....

We're gonna focus on the little goal of \$500 a week

because that's something I think everyone can do and everyone can start with.

If you really focus, it's not that hard to do.

You could do that with:

- YouTube traffic
- Free Google traffic
- Banner traffic
- Paid traffic
- Solo ads

\$500 a week
is not that much

Now, again, I don't know if you're gonna do it

I don't know if you'll do anything.

I don't know if you're gonna listen to this and you're gonna get all hyped up
and then you're gonna do nothing.

I don't know if you're gonna listen to it, get all hyped up....

1. **Get one of my programs**
2. **Learn about my stuff**
3. **Get the knowledge and actually use it and ask for help**

I don't know what kind of customer you'll be

*I don't know what kind of student you'll be
....so I don't know what the results are gonna be*

Unfortunately, most people....

Even most people who buy the products don't do anything with them!

I like when people tell me if something's not working in the program because I hardly ever hear it. Most people don't go through it. Most people don't get to the end.

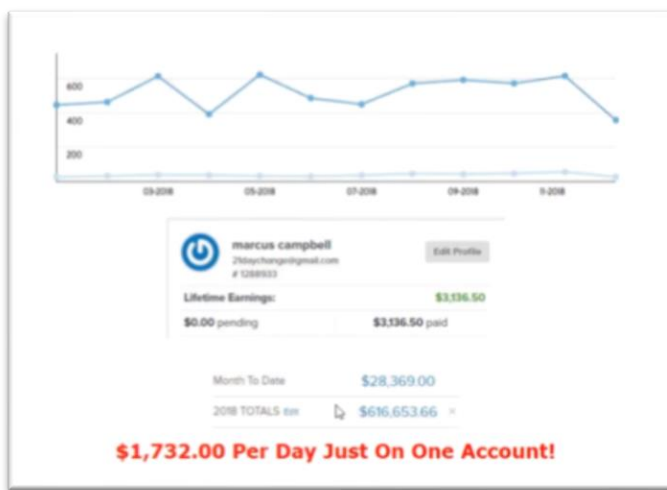

but if you do,

that's gonna put knowledge in your brain

it's gonna get you where you want to go

...if you focus!

Another screenshot here.

You could see that...

1 account = **\$1,700** a day
\$1,700 a day x 31 days in a month
\$50,000 in a month
\$600,000++ in a year

Pretty cool, right?

Oh, I don't have money to buy your product.

Who said that you had to buy my product?

A lot of people got rich without products

Is it easier to get help from a guy who's been at it 19years?

Of course it is!

Is it easier than doing it yourself?
To have a guy actually, literally show you on screen?

Of course it is!

But can you do it?

Of course you can!

It is free. You could do whatever you want.

but you got to focus

These are the little hang-ups we have...

We have people saying:

no money... broken laptop...

You're able to read this training!

However you're viewing this,

USE THAT AS A WAY TO MAKE MONEY

if you got a phone, you could do WordPress

if you got internet access, there are no excuses!

Go fix your laptop!

Go buy a new laptop!

if that's what you gotta do

I started my business on debt

People: You should not be in debt.... that is bad

They're like....

I shouldn't do debt to start my business

but I should go into debt of hundreds of thousands of dollars for a house! ???

What if I know my business is gonna work?

What if I know it's gonna pay off?

I knew mine was gonna pay off

There was no excuse. This is going to work.

How's it gonna work?
What if it fails?

It doesn't fail. I go ask Bob to buy some.
Bob buys some. I get money in my pocket
How do you fail with something like that?

You are in charge of your destiny.

If you're broke right now

it's probably because of what you did

If you're rich right now

it's probably because of what you did

**ALL OF MY SUCCESSES
ALL OF MY FAILURES
ARE BECAUSE OF WHAT I DID**

100%

I learned that in rehab. It is a very difficult thing to learn but I'm glad I did because I'm almost five years sober today and it changed my life. I used to be a victim. I remember being a victim and I thought this was my victim thing.

I thought: I can't quit drinking.

What does the internet marketer have anything to do with quitting drinking?
Why did you end up like almost completely broke after making millions of dollars on the internet?
Whose fault was that?

Taxes are too high!
Alcohol is bad and it took over me!

NO.

It's because you did it.
You were in charge of where you're at right now.
You're in charge.

What do you want to do now?

*I'm not saying stories aren't tough
I'm not saying stories aren't hard
I'm not saying things don't hurt*

But I am saying....

THE STORY YOU TELL YOURSELF...

is it what's either.....

Gonna take you to the next level

or

Keep you where you're at

or

Make you go backwards

Look at me

I thought I had it.....

I make money on the internet!

I should have a different rehab because I'm smarter!

I should be able to do this because I know....

GET IN FREAKING LINE

You are 1 of 8 billion people on this planet

**and your story doesn't matter as much to other people
as it does to you.**

You're here.

You need to do something.

*It doesn't matter what you feel,
what you think;*

It matters what you do

What I know gives me options

A lot of you guys know a lot of stuff and you have a lot of options but you're not taking action because, like I learned in recovery.....

What you do keeps you sober

**What you know gives you options
And you got to focus on that**

I want you to focus now

Another thing that people look at is excuses with other people.

Who thinks that I have an unfair advantage
when it comes to affiliate marketing?
The reasons you think it's unfair?

- Marcus has money
- Marcus was smart
- Marcus just knows the internet
- Marcus had a computer

I'm on the same playing field as you

I didn't somehow wake up in 2018 and they were like

"Hey! in 2018 the market saturated, except for Marcus..."

**That's not how it works!
Doesn't work that way!**

Selling is just sharing.
That's all in it

Here's the cool thing about affiliate marketing:

I could sell whatever I want

I can get a good guy to my site and he's like "I want to buy a TV"

I've got what kind of TV you want?

I don't have to sell the TV!

The store tells me to sell.

I could sell every damn TV on the planet!

All i need is an affiliate link

How many of you guys can do that?
If you can do that, you can make money

KNOWING HOW TO RESEARCH THINGS

Unfair advantage:
No ad of mine is
getting approved on Google

Tariq:

Tariq thinks that somehow, someway...

I get special treatment and my ads are approved ???

That's not true.

Here's the deal:

If you're hung up on one company not approving your ads,

Go to another company!
You could go wherever you want.

The problem is that people try one thing
and **they get stuck** because they **only look at one thing.**

This is your business.

Are you gonna do it like you're gonna wake up and go:

"This is what I'm gonna do. This is my business, I'm not gonna sit here and I'm not gonna be like well you know my ad didn't get approved by the networks."

Marcus has an unfair advantage

I don't.

There is no unfair advantage

All I have is **the ability to take fast action**

I see something,

I make it happen.

I go for it.

~~If my ad wasn't approved,~~ I make a new ad
~~If that one is not approved,~~ I go to a different search
~~If that isn't approved,~~ I go where my traffic is
~~If that's not approved,~~ I'll make a video
~~If that doesn't happen,~~ I'll do this
~~If the affiliate company goes out of business,~~ I'll go do this

*Figure out what you can't learn
Go to Youtube
Watch a video on what you don't know*

You can learn anything you want

The sky's the limit

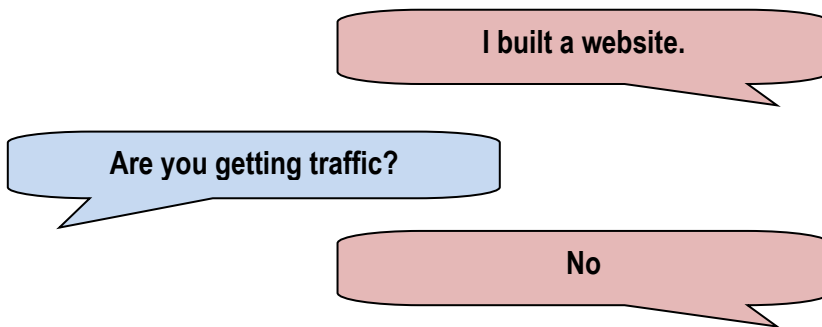

But you're just focused on the wrong thing

My goal is to focus you on the right thing

Because if you're not making money...

You're focused on the wrong thing!

Guess what?

Then you focused on the wrong thing....

You focused on building a website

You didn't focus on getting traffic

What's your focus?

What do you focus on?

Are you focused on getting people or selling people?

You got to get the people

Got to sell to the people

Now it could be easy,

like **CLICK HERE** and **DOWNLOAD A TOOLBAR**

That's a sale I've made millions of dollars

You guys are totally over complicating this. **You got to focus and you got to do it**

*I'm not that smart
Half the stuff I do is pretty darn dumb*

but I do things that work!

You only need a few good things to work

or one good thing to work to make this happen.

I know you can

*You could easily just go out and do it
You got to focus on it*

JUST DO IT

Think about your goals

“What do you want to accomplish?”

You want \$500 a week? You want \$1,000 a year? \$10,000 a year? \$100,000 a year?

What do you want?

I want you to think about what you want. I want you to make it realistic.

If you've never made a \$100,000 in your life, I don't want you to type \$100,000. I want you to type the most you've made in your life.

The goal for next year should be your biggest year by at least a dollar.

If I made \$50,000 last year, my goal should be \$50,000

Why are we doing this?

1. It needs to be realistic.
2. It's got to be something you've attained before so you understand what it is gonna take.

because a lot of people come to me

"Marcus, I only want to make \$1,000 a day"

I **HATE** when people say

"I only want to make \$300"

I **HATE** when people come to me and say that
because **THEY'RE NEVER GOING TO.**

Why?

They said **ONLY**

They **diminish the value of talking to me** because they're like

"This is all I want. You're rich and all I want is this little bit."

There you go. *That's what i want you focus on.*

Now, my first year goal was 20,000 and I hit it.

Now if you come to me and you're like

"I want to make as much as possible"

That's fine

That's for later

For now, **do something that's gonna get you a result**

Now, a lot of you guys still need to make your first dollar online.

Your goal is to make your first dollar.

That's your goal

If you have not made your first dollar, your goal is to make your first dollar

Plain and simple

After that, **FOCUS ON SOMETHING.**

I guarantee that's gonna be your favorite dollar

It was my favorite.

My favorite dollar is when I made the \$27 when I came home on July 4th. I made it. I didn't do anything. I was out on July 4th, having hamburgers, swimming in the pool. I came home and I was like

"Dude! I got \$27! That's pretty cool!"

First of all, we got to get you guys to your first dollar

Not that hard to do. It's actually pretty easy.

We're gonna show you how to do it:

GET YOUR GOAL

Any Results You See Or Read About In This Report Are Not Typical, Implied, Or Guaranteed. Building An Internet Business Of Any Kind Takes Work, Dedication, Persistence, And EVEN Then You May Make Nothing And It's Possible You Could Even Lose Money. The Average Affiliate Marketer Earns Nothing.

www.AffiliateMarketingDude.com

There's your goal: it's your first dollar.

Go make that today or tomorrow or whatever!

but by the first of the year, make a goal

Say **"By the first of the year, I'm gonna make my first dollar online"**

Watch some videos.

Learn some stuff.

Do what we teach you.

You should be able to make your dollar

Disclaimer: Results are not typical. I don't know if you'll make a dollar. I have no idea what you're gonna do but it's pretty easy to make a damn dollar. I think everyone can do it.

**Step 2:
Plan How You're Gonna Get It**

Focus on some good stuff.

Martin's gonna make three sales a day on the betta fish book.

How he's gonna do it?

There's lots of offers out there

If there's betta fish offers here,

You could use Clickbank

You can find Petco stuff

Boom! Done deal!

Right?

*In the betta fish market, if you really worked it, I think you could probably get a lot of free traffic as well. **Play that angle.** Do what you got to do to get what you got to get.*

A lot of people come to me and they're like

Marcus, I want to make a MILLION DOLLARS.

I've never made a million dollars before in my life.

I've only made \$20,000.

What did you do to get to \$20,000?

I worked my ass off. 8 hours a day.

All day in a factory and I hated it.

www.AffiliateMarketingDude.com

Okay. Fine. What are you gonna do to get your million?

Well, I don't know.
I got 45 minutes to work.....

In your world, HOW DOES THAT COMPUTE?

You work your butt off in a factory for 20 grand a year and you think you're gonna fart your way to a million just because it's on the internet?

No.

Now, it might be easier

but **GET REAL** about stuff.

Get this pie-in-the-sky junk out of your head

and **FOCUS ON WHAT WORKS**

Getting people to do things that pay you. *That's what works.*

If you're not out there, getting people to do things that pay you,

then you're not really working on the internet.

You're fooling around.

I don't want you to fool around.

I want you to get results!

I want you to make it happen!

It can be easy

You can go to our vault and you can type things

You could see all the chrome extensions that are available

These extensions pay you when people download things

You don't even have to sell stuff

I could get people to
DOWNLOAD THE TOOLBAR

I MAKE \$3

If you want to make **\$50** or if you want to make **\$500 a week**

All I need to do is get **149 people per week** or **21 people a day**

to download the toolbar

You didn't sell anything

The guy out there who said "I can't sell things",
there goes your excuse because I didn't sell anything

I gave away toolbars

It doesn't matter what you do
If you have an excuse,
You're just gonna keep making excuses...

Do you want excuses?

*I can't put excuses in my bank account
I can't even put excuses in the junk money drawer*

But I can take these to the bank if I use them right

It's not that hard to do.

You just got to focus!

You gotta learn!

*When I was in the smiley face market and the download market,
I went for every traffic method possible*

Why?

**because I knew there was
\$5,000 a day
in that market**

*I needed free traffic. I need to get paid traffic and get this traffic and get that truck.
I made a video where I put my voice with a talking smiley face.*

That's how much I wanted traffic

DO WHAT YOU GOT TO DO

If you went to your job tomorrow and they're like

"You're fired if you don't get different shoes"

Would you *go home and cry?*
be like... "I'm gonna get fired....."

You would go in there. You'd buy a damn shoe store full of shoes.

If I lose my job,
I lose my money.....

So I'm gonna WEAR THE RIGHT SHOES that he tells me to do

So many people are like

**"Oh, I'm stuck with these shoes.
I'm gonna get fired because I don't have these shoes"**

What am I gonna do?

I'm getting new shoes! I'm gonna do it! I'm gonna make it happen!

**Who is in charge of this?
You're in charge of it**

We'll help you. We want to give you guys awesome stuff with no excuses!

We want to make it work!

Do what you got to do. You make it happen.

You might be saying

"Well, Marcus... We can't all do this."

The question is: WHAT WILL YOU DO?

What you **LEARN** *doesn't matter*

What you **DO** matters

I got this guy years ago. He guy calls me up on the phone and he's like...

"Marcus, I bought all your ebooks. I bought all your CDs and I'm not getting anywhere. All you want me to do is buy stuff. Buy stuff. Buy stuff."

He was really mad and he actually cussed me out at the end of the call.

The fact of the matter is the guy never did anything!

You could buy my product, not log in, not watch the video, not set up a site....

If you never do anything you're not gonna get anything

You gotta be ADAPTABLE

**Amazon only pays 4%. I don't want 4%. I want 50% or at least 30%
or a hundred if I could get it! I want a lot of money! I don't want a little money!**

Because I know if I get 100 people to buy and I'm only getting 4% of a \$10 book,
I'm gonna be broke and I don't want to be broke. I want to make money

Maximize every click! It's not enough do better!

How happy would you be if I told you....

"Hey! Look! You made 3 sales and got 35cents from Amazon!"

....could have made 80 bucks over here
and **That's A Deal You Are One Step Away From Making**

I was talking to a guy yesterday. He comes on and he's like..

Don't Be Discouraged

Dude, You Got 400 people

You got this many to opt-in

You got a sale which paid for your ads

You broke even

You are one little millimeter from making the thing work!

Here's what you do:

**Go do it
Make it work**

And if it doesn't work

You say "WHY?"

If the dude got three sales, he'd be profitable....

You get three sales a day, you're really profitable!

It's all numbers. It's all simple

We talked about stories in the beginning....

The internet doesn't care about your story

Best thing I ever learned in alcohol recovery was standing up in front of a bunch of strangers, which a lot of people are scared to death to talk in front of people. I was scared because it was like personal stuff. They let you tell your story. I stood up in front of a bunch of people and told my story and it is all the details.

Here I am and....

...I'm expecting people to cry

...I'm expecting people to come talk to me

...I'm expecting like a bunch of reactions

and people to be emotionally driven

www.AffiliateMarketingDude.com

You know what I got?

I got 20 people who said "Thanks for sharing, next person please"

That was the **biggest eye opening moment of my life** because I told my story. Ever since I was a kid, **I would tell my story and someone would feel bad**. I'd tell my story and **someone would cry**. I'd tell my story, **someone to take me out for ice cream**. In life, if I told my story, **people would buy things**. If I told this, **people would feel this**. Here I am in a room. **I just told the most vulnerable story I can tell**. I'm like holding back tears. **And they say "Thanks for sharing, next..."**.

What about my story?

The internet doesn't care about your story.

ONLY YOU DO

and only you are gonna let it stop you as much as you're going to

My story has happened

But do they define me? Do they hold me back?

When I drank they did....I said

"Oh man. I'm a victim. When I was a kid, this sucked. When this happened, this sucked. I'm gonna go drink because this sucks"

*or I could be like.... **HERE I AM***

THIS IS WHERE YOU ARE

**YOU'RE WHERE YOU'RE
AT RIGHT NOW**

Okay. You're reading this training and you might be totally broke or you might be pretty well off. You may be watching this in your van down by the river or you could be watching this at the library. I got a lot of people who watch me all over the place and you could say....

"My story's gonna stop me but woe is me I'm in the library"

or it could be like....

"I'm in a damn library. I got books behind me. I got all the knowledge in the world. I could go get books about wedding design and I can learn about wedding design and I could make a website about wedding design right here in this damn library. I could make it happen."

I have students who have made it happen from the library because they didn't even have internet access at a home that they lived in that was shared with other people.

Is your story gonna stop you?

Or are you gonna make it work?

What are you gonna do to get what you want to get? DECIDE ON IT

That's The Key

Your life philosophy is stopping you if your life philosophy is....

"The Gurus make money.....

I don't make anything.....

Everything sucks.....

Everything's against me.....

Taxes too high....."

It's not gonna work for you

You need to get a life philosophy that works for you

A lot of people have a lot of dumb life philosophies.

You need a good life philosophy. You need one that says...

"You know what? Marcus did it. He was down and out. He was in a mobile home. That sucked. That was so bad."

I didn't have knowledge back then

My dad taught me a few things about sales but I learned some things going on and

I just made it happen. I didn't accept no for an answer.

I didn't accept failure as an option.

What's your back-up plan?

I don't have a back-up.

You go sell stuff

.....if you give away the lottery toolbar or the bus toolbar,

You're gonna get \$3!

What's your backup plan?

I'm gonna go get \$3 and I'm gonna do it like a hundred times a day!

*I'm gonna do it because I know at least a hundred people take the bus every day so **I'm gonna do it!***

You guys are getting an **AHA!** moment

How many guys are digging this stuff?

Because if you get it, **YOU'RE GONNA USE IT**

So you gotta ask yourself....

How are you gonna get the traffic?

Will you direct link or will you make a site?

How will you build the site?

Where will you get the content?

How will you increase conversions?

How will you revamp revise and thrive?

You might be saying...

"But Marcus.... It's so HARD."

*I can go to Clickgo, Clickbank or Warrior Forum or get some automated software or secret thing. **The problem is that a lot of people are looking for a fast way to make money and they're looking for it for like 10 years.***

This is a funniest thing in the world!

Isn't it already not fast if you've been doing it 10 years?

I'm here to make this work. I'm not here to mess around.

Here's the keys to making it work: **You need to get to work**

It's not hard work

Hard work is the factory guy making 50 grand. I know. My grandpa was a factory guy. He did triple shifts. He had to build a shower in the house so that he'd come home and he didn't wake anyone up. That's hard work. I sit here in an air-conditioned

office in my back yard and I look at screens. I talk to you guys which I actually think is fun. I actually probably have more fun than you guys do on these. And that's what I do. That's not hard.

You got to start in the right direction.

What's the right direction?

You just do it
No more messing around
Let's make it happen!

Finding The Right Niche
Take a focused shot!

Don't go out there and be like...

"Well, I got the bus thing and I'm gonna go on Facebook and get traffic..."

"Why are you gonna do that?"

"Some guru said Facebook is good."

"Is that where the bus people are hanging out?"

"No."

"They're hanging out at the bus stop.
They're searching Google that's where they are."

“Dude, It would be totally worth that!”

Then after 12 weeks, if I want to learn more, I can do that!
Or if I'm already making money and doing stuff, then I could do that too!

We got to make it work and we got to cut out the reason that it's not working.

If I only teach you how to make \$3.50 a day

You'll make your money back!

How many of you guys know beyond a shadow of a doubt that I could teach you to make \$3.50 a day?

If I could show you how to get one download a day

There you go! Done deal!

You will make your money back that year

*I can't guarantee you'll make anything because I don't know what you're gonna do but look at this: **\$3.35 If You Got One Download A Day***

**That would be your money back
if you get 10 DOWNLOADS A DAY**

It's Really Not That Hard!

What's more important than the money you could make?

It's **what you're going to learn** because **what I've learned has taken me from everything**. I've actually had my business. **I started from nothing**. I was able to have my kids, have a good life, buy houses in California, move our family across the country. **I was also able to pay myself through rehab and it worked**. I actually made more money while in rehab than it costs for it. Rehab is not cheap by the way. **I was able to bounce back** in 2013, 13 years after I started my business. I was almost done! Almost out.... And **BOOM! I was able to come back quick!**

2006, almost lost everything.... Boom! Made it work!

You got to focus.

You got to make it happen.

You got to do what you got to do.

I remember I bought when I had very little money in the bank but I was like...

I didn't say "Oh well. You know I kind of want to do this or whatever."

*I made it a **MUST**.*

*I said there is **NO FAILURE**.*

*There is **NO NOT GONNA WORK**.*

And I'm Gonna Make It Work

DO WHAT YOU GOT TO DO TO GET WHERE YOU NEED TO GO

I think that, for those of you who can do the boot camp, I think you guys are gonna love it. We're gonna have a riot when we hang out together in Florida!

**If you guys can do that simple sites boot camp
It is the best way to go!**

Historically, This Has Been Where Most Of My Successful Students Are

I remember I had one guy. This guy was huge. He was like 6'9" and he wanted to go to our Live Meeting and it was halfway through boot camp.

He's like "Marcus, I only have \$700. Can I come?". I was like "Yeah. We're halfway through it, you can come.". I let him in because he was just a nice guy and he'd been trying other stuff and I figured I'd give him a discount, help him out or what not. He came and he showed up. He had no money.

I remember he wanted to go to the private dinners we had where he could pay and have dinner. He couldn't afford to have dinner. We just bought him dinner and he really liked it. He appreciated it and I felt good.

We got him dinner and he hung out with us. This was in November.

The next time I heard from him was January 11th and he's like "Marcus! I'm making \$11,000 a month now! I'm gonna buy your bootcamp now! Because... hey you know what? I didn't pay it in full last time so I'm gonna buy it now. What else do you have to buy?"

Last I heard from him, he's still doing that well. Most of his money was on the toolbars that I'm teaching you how to do which is cool. I think he's got some Youtube videos out there floating around.

Again... results are not typical, implied, or guaranteed

The amount of people who make \$11,000 a month or anything that I don't even know is probably less than 0.0001% because most people don't take action. Of the people who take action and really do it and really commit, They can do it right!

You just have to do it
You have to make it a must

It makes sense, right?
A lot of stuff out there?
It doesn't make sense

*All right Marcus.
How do I get paid?
How does it work?*

Well, here's how it gets paid....

You're gonna get paid from Toro if you guys **RUN THIS OFFER.**

They're gonna send you a check and you're gonna **GET YOUR TRAFFIC.**

FAQS

Here's Some Frequently Asked Questions We Get About The Bootcamp

1. Do I have to have cash reserves? If so, how much?

Now a lot of people ask this. What are the costs in addition to my product? Well, you need web hosting. Web hosting is about \$60 for the year. So have \$60. If you've got that, you're good!

We're also going to show you how to get credits for pay-per-click traffic so the first couple hundred bucks you run are on the house. When you sign up for the hosting, they give you some traffic coupons.

2. Doesn't it cost a lot to maintain all your sites?

No, actually you can maintain a lot of the sites on one hosting account for about \$9 a month or \$60 a year. Really cool!

3. Do these sites ever run out or stop making money?

Now, most of the sites you use (like if you do the betta fish one that's been around forever) will always be around. If you do mortgages it'll always be around. Myspace fused out but I pocketed two million dollars in that niche so I'm not complaining. You just got to look at it. You got to focus. If it's a trend like bell-bottoms, obviously that's gonna come and go. If it's something that goes long-term, it'll work.

4. Do I have to be techy?

No, I'm actually not that techy. Actually, all my tools and stuff are made by outsourcers. Half of my outsourcers are annoyed because I usually ruin the things they make. So, you don't have to be techy. You don't have to worry about it.

5. What's the catch?

Here's the deal: you guys might be thinking that this is too good to be true. You might be like

"What? No one takes us under their wing. No one gives us a site? No one walks us through everything and makes it work."

"Dude! Marcus! You changed my life!"

Years ago, one guy wanted to take a picture with me. He said...

"I got to take a picture with you because every Saturday, my daughter and I watch your videos. I literally am financially free. I'm retired. My house is paid. Everything is done because of what you taught me in those videos. My daughter is gonna be flipping out that I actually met you because we do this together."

It was really cool because

Wow! It Changes Someone's Life!

And A Lot Of People's Lives Have Been Changed

I've seen people who were down and out in tears when they met me and they've tried everything and nothing is working and they're struggling. They don't know what to do...

And guys, They're Making It Happen!

*It's not that hard
You just got to do it*

One of the things you're gonna learn about me is that I have the type of brain that has to figure something out. If you come to me and you're like...

*"Marcus, I'm in your boot camp and I want to make this work.
This is my website..."*

My brain literally has to come up with a solution
I can't just look at your site

That's why sometimes I'm not gonna look at your site because I know my brain is gonna focus on this. Sometimes, I look at it and I have to figure out a way to make it work.

As a bootcamp student, **YOU GUYS GET ME.**

You Guys Are Gonna Get 6 Months Of Support.

I remember, I got a guy years ago he comes to me and it's like...

"Marcus, you don't know me but I bought your course 6 years ago. I don't work anymore! I make a million dollars a year and I don't work anymore!"

.....**All because of what I taught**

I remember one kid came to me. He learned how to make this. He still makes money today and for some reason, years later, he decided he didn't like me and he wrote bad reviews. He's writing bad reviews but he paid \$97 and makes \$10,000 a month off it. To each his own.....

He's making it work

I don't care about being liked

I care if my family likes me, which is my kids and my wife

I Don't Care If You Like Me

These are from tons of people that have come through

Jim was 67 when I met him and he was retiring. He was living in California and it's hard to retire in California on a good salary. He was on a retirement salary and he was having a hard time. He couldn't get it. He used to be like

"Where do I get paper clips?"

and I'm like...

*"No Jim. They're not paper clips like paper clips. **They're pay-per-click.**"*

So, he finally learned how to do it and is **making \$7,000 a month** on a homework website. He made a site about math because he's kind of a math geek so he made a site about math to help kids with homework. **He directed them to a tool bar** about homework and **BOOM! He was making money.** He still makes money today with it.

This guy here got one of our sites and he actually **Showed His Checks Where He's Making Money.**

This guy was doing a site, he made **\$450 in 5 days.**

You don't have to be there live or anything but what we do is that before the class starts, i ask everyone the best time. They use a little survey type thing and we get the best time and we use that.

How much time to devote daily to it?

I would say 45 minutes - 2 hours. If you go over 2 hours, you probably get into info overload range which is why a lot of you guys are struggling right now. If you can focus 2 hours on dedicated stuff, that would be great. 45 minutes would be good also. That's no problem. There have been a lot of people who do 45 minutes.

Remember: In the beginning it's gonna take a lot more time. Later on, it's going to taper off and you won't have to take that much time.

What is the simple sites bonus course?

Simple sitesbonus course is the software. It walks you through everything so you can learn that. You also get that as part of bootcamp!

For those people out there who complain about my videos not working...

It's a chrome add-on so if you get these videos these work but if you get one that doesn't, all you need to do is log into the members area and either add the flash plugin on chrome or just use a Microsoft edge or Firefox

Is the simple sites course actionable, easy to follow?

Yes. it is like "Do this... Do this..." so you just go through. On the simple sites course, follow getting started, then when you're done with getting started, you go to niche finding. It'll show you how to find a niche, then it'll go through and go to offers so it's very, very laid out and very easy. if you ever get stuck, just ask questions. get us on live chat. Whatever you got to do, get us in there.

If I do the 2 hours recommended how long before I can have an ad up and running?

You can make an ad in 30 minutes. You go watch a video on how to make an ad. You'll be in there in like 30 minutes! Not that hard! You can have a website built like the way that I teach you.

SIMPLESITESBOOTCAMP.COM
